Complaint Details

Subject: Unaffordable Loan Modification - Increased Interest Rate and Monthly Payment

Complaint: I am filing a complaint regarding a mortgage loan modification that appears to have made my mortgage significantly less affordable rather than helping me avoid financial hardship.

Prior to the modification, my mortgage interest rate was approximately 3.75% and my monthly payment was approximately \$900.00. As a result of the loan modification, my interest rate was increased to approximately 7.25%, and my monthly mortgage payment has increased to approximately \$1,500.00.

My understanding is that a loan modification is generally intended to help borrowers obtain a more affordable and sustainable payment. Instead, this modification substantially increased both my interest rate and monthly payment. The modification has created a significant financial burden and has made it more difficult for me to maintain my mortgage obligations.

I am concerned that I may not have been provided with a clear explanation of how the modification terms were calculated, why my interest rate increased so dramatically, and why the resulting payment is substantially higher than what I was paying before. I would like the servicer to provide a detailed accounting and explanation of why my interest rate was increased from approximately 3.75% to 7.25%, how the modified payment was calculated, whether all available loss mitigation and modification options were considered, and whether the modification complied with applicable investor, servicing, and regulatory requirements.

Desired Resolution: I would like the servicer to conduct a complete review of my loan modification, provide a written explanation of the interest rate increase and payment increase, evaluate me for any available modification or loss mitigation programs that would reduce my monthly payment, and correct any errors in the modification process and offer an affordable solution if appropriate.

Thank you for your assistance in reviewing this matter.
